WILLIAM PAPPAS  
MANAGER  
CAMBRILLIC NATURAL STONE LLC  
1730 S 1100 E  
SALT LAKE CITY UT 84105

Dear Mr. Pappas:

We are in receipt of Mr. Gatto's letter of June 15, 2000 regarding the timeliness of the preparation of the Environmental Assessment (EA) for your Plan of Operations. As evidenced by our June 1, 2000 letter to you, the EA was, for the most part, complete by June 2. However, problems that became evident during the preparation of the document needed to be resolved before its completion. Your concurrence on the location of the activities was necessary before we could address potential resource conflicts, such as watershed, in the EA. It was also to your advantage to have been afforded the opportunity to comment on it prior to its completion.

The EA must now be reviewed for technical accuracy, and, if I then concur with its findings, I should be able to sign it early next week. Approval of your mine plan will then be contingent upon your submitting an interim bond to the Utah State Office of the Bureau of Land Management (BLM). Information on filing a reclamation bond with the BLM can be obtained from Opelonia Abeyta at (801) 539-4123.

Since this is an interim bond, we have not undertaken an actual reclamation cost calculation. If you wish to do so, and submit it to us for our approval, you may do so. Otherwise, we believe that \$5000 is adequate until you submit a Large Mine Plan to the Utah Division of Oil, Gas and Mining, and that agency is able to determine a final bond amount.

If you have any questions, please feel free to contact Sheri Wysong at (435) 743-3124.

Sincerely,

*W. Jayean Christensen*
